Medical Certification Form

To Physicians and Public Health Officials: This form has been approved by the Michigan Public Service Commission for your use in verifying a medical condition of this patient that justifies a hold on shutting off utility service.

Instructions

A customer may provide a signed medical emergency hold request to postpone the discontinuance of utility service or restore service. For power to remain on, this certificate needs to be completed and returned to your utility within 3 business days. If utility service is a necessity, you must make other arrangements for on-site back-up capabilities or other alternatives in the event of loss of service.

If a customer submits a medical emergency hold request signed by a physician or public health official, along with the additional required information listed below, Wisconsin Public Service will suspend shutoff action for at least 21 days, and services will be restored, where applicable. The customer may be charged a deposit to the account for service restoration due to disconnection for non-payment.

Approval of this form does not prevent shut-offs indefinitely. You must take steps to resolve unpaid bills to avoid service termination in the future. We encourage you to visit www.wisconsinpublicservice.com/mi_assistance to find available programs to assist with paying energy bills. You may also contact the United Way at 211 for free confidential service that links people with local community-based organizations across the state that can help with utility assistance and other needs.
